Palash Srivastava

Head of Platform | DevOps Manager | Site Reliability Manager

New York | srivastavapalash | srivastavapalash0@gmail.com | +1 (571) 236-0145

Hands-on reliability and platform leader with 9+ years building and operating scalable, production-grade infrastructure

Experience

CONSTRAFOR | Head of Platform | DevOps Manager

June 2024 – Current | New York, USA

- Drove **SOC 2 Type II** readiness by establishing security policies/processes and hardening infrastructure and applications through remediation of security findings.
- Reduced AWS spend by **50% monthly** through architectural optimization
- Led re-architecture of the core backend to support **5x traffic growth**
- Partnered with product, design, and engineering on platform roadmap
- Re-architected daily releases through CI/CD redesign, accelerating delivery velocity
- Orchestrated cloud infrastructure, deployment pipelines, and runtime operations for the **Cru AI agent**, ensuring reliable, scalable, and secure production workloads
- Drove process and tooling standardization to improve consistency and platform scalability
- Improved developer experience by enabling on-demand PR-based review environments
- Owned and executed GitLab-to-GitHub migration, achieving a **70% reduction in deployment time** and strengthening CI/CD security and reliability

CERTIK | Sr. Platform Engineer

Nov 2023 – May 2024 | New York, USA

- Conducted AWS service review, achieving a **15% reduction** in overall costs
- Enhanced AWS security by remediating vulnerabilities & ensuring compliance
- Negotiated vendor contracts seeking efficiencies and continuity

TS IMAGINE | Cloud DevOps Engineer | Software Engineer

Jan 2022 – Nov 2023 | New York, USA

- Developed and integrated central monitoring using Prometheus and Grafana
- Led a POC to migrate VaR calculations from on-premises to GCP, resulting in a 20% increase in efficiency and a **30% reduction** in operational costs
- Scripted Jenkins pipeline and agents to do end-to-end deployment of Risk Product
- Designed technical infrastructure design documents for cloud migration
- Implemented a test plan to compare real-time VaR numbers on GCP vs on-prem
- Migrated DEV and PPE infrastructure from Docker Swarm to GKE

TS IMAGINE (IMAGINE SOFTWARE) | Site Reliability Engineer

Sept 2019 – Dec 2021 | New York, USA

- Redesigned production for site-awareness, cutting disaster fail-over time by 70%
- Implemented proactive monitoring, alerting and trend analysis using Python
- Administered and deployed Docker swarm across dev, uat and prod environment
- Resolved production incidents and implemented preventative solutions

FIS | Programmer Analyst

May 2019 - Sept 2019 | San Diego, USA

- Designed and developed data models, reports and interfaces using Oracle PL/SQL
- Collaborated with clients and gathered requirements for ACBS suite development

FIS | Derivatives Analyst

Apr 2017 - May 2019 | Jersey City, USA

- Scripted alert monitoring on ITRS Geneos to maintain the stability of servers
- Provided L2/L3 support for application breakdowns thus ensuring trading stability

Skills

Cloud & Infrastructure:
AWS • GCP • Kubernetes • Docker • Cloud Migrations • Scalable Infrastructure

DevOps & Automation:
CI/CD • GitHub Actions • Jenkins • Terraform • OpenSearch • Spinnaker

Leadership & Strategy:
Team Building • Mentorship • OKR Planning • Cross-Team Collaboration • Hiring

Security & Compliance:
SOC 2 • IAM • RBAC • Network Security • Cost Optimization

Observability & Monitoring:
Datadog • Prometheus • Grafana • ELK Stack • Incident Management • ITIL • SLOs

Education

UNIVERSITY OF ALABAMA IN HUNTSVILLE

Master's in Computer Science
Aug'15 - Dec'16 | Huntsville, Alabama
GPA: 3.9 / 4.0

Projects

Bonjour IoT Discovery
Designed framework for service discovery in IOT based app using Bonjour API.

Certifications

Certified Microsoft Technology Associate
Microsoft Certified Professional

Leadership Skills

Supervised docker swarm orchestration in prod.
Graduate Assistant to CSE Department.
